

LUNCH AND LEARN PRESENTATIONS

Lunch is included for each attendee

Ameristar Perimeter Security - Product Presentation (1 hour)

Comprehensive review of complete product offerings, including Ornamental Steel and Aluminum Fence, High Security Vehicular Resistant products, Gate Operators and Access Control Systems. Presentation focused on the service Ameristar offers when planning, budgeting, and preparing final bid packages. Our goal is to get you the right products for the right applications. Ameristar can provide assistance in design, budget, and installation procedures and practices to insure a complete perimeter solution.

AFPOF2-3 - Bollards - Perimeter Security & Traffic Management Design & Practices (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation is to educate Architects, Engineers and Design Consultants in the latest technologies and market requirements for vehicle barriers (bollards). This presentation is targeted for commercial and high security applications. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.

AFPOF3-2 - Perimeter Security Planning. Site Planning Through Assessment (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation outlines the steps involved with perimeter site planning and assessment. Moving into identifying layers of security to create a defense-in-depth solution that offers balanced security. Finally, it talks about the solutions that can be incorporated at each perimeter security layer. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.

AFPOF5-2 - Fence Framework - Design & Construction Standards (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation will provide a better understanding of Fence Tube and Framework options including a review of current standards and performance requirements. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.

AFPOF6-1 - Integration of Safety Standards Site/Climate Conditions with Gates & Automation (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation will provide a better understanding of how UL325/ASTM F220 Safety Standards, vehicular safety, site and climate conditions will impact automated vehicular gates and access controls. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.

AFPOF7-1 - Codes and Standards Affecting the Perimeter Security Industry (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation reviews some of the current codes and standards affecting the perimeter security industry. ASTM, IBC, UL Listing, AASHTO and other safety codes have made understanding and providing appropriate solutions more challenging than ever. Modern challenges have created a higher demand for very specifically performing fence and perimeter control systems. We take a close look at those requirements and review product solutions for an effective approach to physical site security and access control. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.

AFPOF8-1 - Understanding Modern Ornamental Fence Products and Applications (1 hour)

AIA accredited presentation - 1 hour (CEU)

This presentation will provide a better understanding of modern Ornamental Fence products and their applications. All persons attending this presentation qualify for ONE HOUR of continuing education credit through the AIA program.

OPSS01-2 - Architectural Perimeter Security Alternatives (1 hour)

AIA accredited presentation - 1 hour (HSW ACCREDITED | CEU)

This presentation outlines the role of passive and active perimeter security barriers in an effective holistic approach to physical site security, and their recent developments. All persons attending this presentation qualify for ONE HOUR of continuing education (including HSW) credit through the AIA program.
