Ameristar Perimeter Security (an ASSA ABLOY group brand) is the largest ornamental and security fence manufacturer in the world. We also offer a full line of perimeter security products including gate systems, anti-ram fences, active vehicle barriers, and security bollards. Our high standards produce premium products that exceed industry standards. Superior customer service starts with our team of vertical market specialists and market developers who work closely with design firms and owners to ensure each project exceeds expectations for security, safety and success.
